8. Potwierdzeniem legalności posiadanego oprogramowania jest możliwość wskazania zamówionych produktów wraz z ich kluczami po zalogowaniu w systemie dystrybucyjnym eLMS. Niemniej jednak ponieważ zarówno system jak i posiadane przez Państwa konta nie zawsze mogą być dostępne (a czasami nawet mogą zostać z różnych przyczyn utracone) sugerujemy wykonanie następujących kroków w celu utworzenia dokumentacji dla pobranego oprogramowania:

- a) prosimy **zachować e-mail (przychodzący automatycznie z systemu) z potwierdzeniem złożonego zamówienia** (naturalnie można go również wydrukować).
- b) w trakcie składania zamówienia prosimy **wydrukować stronę z podsumowaniem zamówienia** (zawiera nazwę produktu oraz klucz; patrz – zrzut ekranu powyżej) a następnie **wydruk potwierdzić pieczątką i podpisem** u aktualnego opiekuna eLMS w budynku WSTI, pokój 3.71 (krok ten powinno się powtórzyć w wypadku późniejszego uzyskania dodatkowych kluczy).

Tak sporządzona dokumentacja może okazać się przydatna na wypadek konieczności potwierdzenia legalności posiadanego przez Państwa oprogramowania.

9. Po kliknięciu w link **DOWNLOAD OPTIONS** a następnie w link wybranego przez nas oprogramowania przechodzimy do momentu pobierania i tym samym kończymy całą procedurę:

The screenshot shows the 'Download' page with instructions for downloading the selected file. The instructions are as follows:

1. Download a "Delivery Client" executable that will handle the actual file download, using the "Start Download" button below. Please make sure to save the file with an ".exe" file extension in order to launch the file. If the file is saved without an ".exe" extension and no icon appears, please rename the file and add the extension ".exe".
2. Launch the Delivery Client (it will have an icon that looks like this: )
3. The delivery client will walk you through the following four steps to download the file:
 - o **Authorization:** Your download must be authorized. If you do not have available downloads, please contact support to request additional downloads (see Help on the website).
 - o **Downloading:** The protected file will be downloaded to your local computer.
 - o **Unpacking:** The file needs to be unpacked as it is secured.
 - o **Launch Install:** This is the final step where you can choose to install or, in the case of ISO file downloads, to create a disk.
4. Your download is now complete. You can try your download again by retrieving this delivery client from the website or by simply launching it from your local computer at a later date.

You must now install the software; if you have difficulties please see the website for further instructions.
